

## Car parking returns healthy dividend to community

Sunshine Coast Regional Council Division 9 Cr Vivien Griffin was a special guest at our recent AGM.

"The creation of ECCO embodies that sense of initiative that is very much Eumundi and it is a case study in action for Sunshine Coast communities and, with your permission, I would like to use it that way," Cr Griffin said.

Cr Griffin continued her praise and said, "The direct benefit to local community groups of \$56,000 annually from their supplying volunteer car park attendants for the markets car parking is an extraordinary story on its own.

"When you add the community projects such as the community bus and the Experience Eumundi marketing campaign, what has been achieved in a short period is just outstanding and I congratulate the community.

"The acquisition of *Eumundi Green* magazine as the flagship of Experience Eumundi marketing campaign makes great sense as it embodies all that makes Eumundi memorable to visitors and residents."
